

High Density Mini-Rolls

**Available in
Natural &
Black**

High Density Mini-Rolls are the perfect choice for those who are looking for an environmentally responsible bag that is also cost effective. Our High Density bags require less material be used in their production, while still providing a bag that possesses impressive film strength and performs under temperature extremes from -50°F to 190°F. Available in Black or Natural, our HD liners are provided on perforated rolls; a convenient option that allows for easy dispensing as well as space storage. Also, the Mini Rolls that come in Natural are manufactured using USDA and FDA approved materials, making them safe for food storage. When you factor all these things in, it's clear that they are an economical choice for those interested in source reduction.

- Reasonably priced, environmentally responsible product
- Perforated for easy dispensing
- Simple inventory control
- Saves storage space
- Rolls can be placed in bottom of trash can or on maid cart for convenient access
- Ideal for heavy, wet refuse
- Performs well in temperature extremes
- Natural liners are manufactured with materials that are FDA approved for food contact
