

SPORT ONE POLY C woodfloorfinish is a NEXT GENERATION high performance water-based urethane/acrylic wood floor coating with polycarbonate that provides big gains in durability, gloss and scuff/scratch resistance. It's a single component product that requires no separate catalyst. Applies well with most applicators so it's easy to use. There is only a one hour dry time between coats under normal conditions. SPORT ONE Poly Cures in just 24 hours. This allows the gym to be open for traffic and back in service the very next day. SPORT ONE offers excellent black mark, scuff, and soil resistance and is uniquely restorable using standard high speed burnishing equipment.

SPORT ONE POLY C

Water-Based Urethane Wood Finish

Features

- Single-component formula means no pot life and no mess. Now with polycarbonate technology!
- Offers greater durability and ultra-high gloss appearance.
- Black mark, scuff and soil resistant
- Two-hour dry time between coats under normal conditions. Only 24 hour gym down time
- Uniquely restorable with high speed buffer
- Large area coverage – up to 1,000 sq. ft. per gallon
- Slip-resistant - Meets ASTM D2047, VOC compliant all 50 states.

Properties

Type	Urethane/Acrylic Blend
Form	Opaque Liquid
Odor	Bland
Color	White
Weight per Gallon	8.70 Lbs.
pH	7.5 - 8.5
Floor Solids	29%
Storage Stability	Up To 1 Year, Unopened
Freeze/Thaw	Passes 3 Cycles
V.O.C.	<260 gm/l

**Properties are typical and subject to usual manufacturing tolerances.*

Item # 111563 – 2 x 2.5gallon case
