

Formula One®

Heavy Duty Degreaser

This powerful degreaser works where others fail! Spontaneously emulsifies greasy soil to improve cleaning and prevents soil/dirt re-deposition. This is an excellent “catch-up” cleaner that will perform best when used regularly. **Formula One** has a sustained, buffered alkalinity which gives it the ultimate rinsing ability.

This great industrial cleaner is perfect for: Floors, walls, machinery, hoods, vents, tools, equipment, and more! Be sure to use the directions on the label.

Nobody Solves Tough Cleaning Challenges Better.

Formula One

FEATURES

- Positive Emulsion Blend: spontaneously emulsifies greasy soil to improve cleaning
- Balanced Builder Blend: Sustained, buffered alkalinity and excellent rinse ability
- Surface Safety: Built-in corrosion inhibitor
 - Worker Safety: Contains no solvents, phosphates or Section 313 listed chemicals
 - USDA Rating: A-1
 - Sustained, buffered alkalinity

RECOMMENDED USE

- Use 'grit' type brushes on auto scrubber to enhance cleaning on unfinished concrete/other flooring
- Overlap your cleaning passes to assure uniform cleaning and double scrub when heavy soil present
- When mop cleaning, split bucket with microfiber mop to provide most effective cleaning
- If applying pressure washer, stay out of mist
- NOT recommended for removal of baked-on or dried, hardened soils-use solvent fortified, i.e. Formula Five
- This is an excellent "catch-up" cleaner that will perform best when used regularly
- Application: Industrial heavy duty maintenance cleaner - floors, walls, machinery, hoods, sumps, vent systems through mechanical cleaning devices and dip-tank applications.

SPECIFICATION DATA

Dilution	Varied. See label.
pH	conc.)(+ 0.5 @20oC): 13.2/11.6
Color	Clear, red liquid
Fragrance	Mild, Characteristic
Density (lbs/gal)(+ 0.1 @20o C)	8.82
Shelf life (closed containers, 40o – 120oF)	1 year minimum
Stability: Freeze/Thaw	Will withstand 3 cycles
Hard water tolerance(as ppm CaCO3)	>2700 ppm

DIRECTIONS FOR USE

Dilute Formula ONE with water as follows:

Heavy Soil: 5:1 (26oz./gallon)
Moderate Soil: 20:1 (6oz./gallon)
Light Soil: 50:1 (2.5oz./gallon)

Remove loose soil and garbage. Divide floor into workable sections. Apply to surface liberally while scrubbing. Allow to set/work. If heavy soil, double scrub.

DO NOT ALLOW TO DRY. Rewet if necessary. Pressure washer draw concentrate directly follow manufacturer's directions according to soil levels.
