

Thickened Soft Wash

Outdoor Cleaner RTU

Thickened Soft Wash-Outdoor Cleaner is a bleach compatible surfactant that enhances the properties of Sodium Hypochlorite by changing the way the SH clings and penetrates surfaces. Due to its molasses like consistency, our **Soft Wash** adheres to the surfaces compared to many other products running off.

When **Thickened Soft Wash** is blended into solution with your bleach, the solution will penetrate into the surface of the shingles, any roof surface, siding, vertical or horizontal surface.

#104950-1

Nobody Solves Tough Cleaning Challenges Better.

Thickened Soft Wash

FEATURES

- Superior clinging
- Prevents run-off
- Fuji Apple fragrance
- High foaming
- Super Concentrated
- Soaks into surfaces

BENEFITS

- Bleach safe and compatible
- Super concentrated-Low dosage rate
- Mixes easily & blends into solution without leaving tank residues

Directions For Use

- Lay tarps over plants and lawn ornaments that may get wet
- Lightly pressure wash the exterior of the surface, starting with the top first (use fan nozzle spread water evenly)
- For extremely soiled areas, while wet, agitate with long handled brush
- Apply the mixed solution of Soft Wash & Bleach with pressure washer or soft washing system
- Let solution remain on the surface exterior 15-30 minutes, follow by spray rinsing with water.
- Remove tarps and return property to its normal state.
